

PLAYGROUP TASMANIA

The incredible transformation of Playgroup Tas at 35 Holbrook Street!

Sector	Client	Consultant
Commercial	Playgroup Tasmania	Prime Design Tasmania

This project presented us with significant challenges that we overcame through careful planning and expertise, resulting in a more stable and functional space for Playgroup Tas and its young adventurers.

One of the major challenges we encountered during this project was the removal of a sunken fireplace positioned at the centre of the building. Through meticulous planning and precise execution, our skilled team successfully removed this feature and restored structural stability to the building. We also ensured an even floor surface by replacing certain floor joists with wider ones, eliminating any stepped heights throughout the area.

A collaborative effort with Prime Design Tasmania

We couldn't have achieved this remarkable transformation without our esteemed partners at Prime Design Tasmania. Their exceptional design expertise and creativity were pivotal in making this project a resounding success.

The outcome is a space that seamlessly accommodates the needs of Playgroup Tas and its young visitors, prioritising safety and functionality.
